

**“Enriched with more knowledge to seek the truth, wisdom ,enlightenment, salvation for self and all beings.”**

Just a short expression of my personal feeling for this subject... Before attending AWE, I thought Buddhism is a religion no different from Taoism and other religious beliefs that most Chinese and my parents practiced. When a friend introduced me to join AWE, I was interested to find out "What is Buddhism". After attending AWE classes, I'm enriched with more knowledge to seek the truth, wisdom and enlightenment, therefore a salvation for myself and all beings.
